

# ZELUP BLASTER

WASH ①  
BRUSH ②  
DRY ③

ULTRA-RESISTANT  
MATERIAL

## 3-IN-1 HIGH-SPEED ECO-FRIENDLY CLEANER

**Automotive cleaning tool that preserves your vehicle and its paint's shine**

It allows deep cleaning of the rims, the engine bay, the doors, the trunk, the pedals, the glove box, the door bins...etc. Based on the hydro-pneumatic fragmentation, a new technology patented by Zelup®, it consumes between 15 and 40L of water per hour, or 15 times less than a high-pressure cleaner.

This low water consumption not only saves money but also allows indoors use.

The Zelup Blaster does not create spills or splashes; water does not seep in the joints and does not splash the cleaned surfaces. Available in fixed or mobile station for using it in kind of situations.

### INNOVATIVE

Unique "3-in-1" high-speed washing solution that has the functions of washing, brushing and drying.

### ECO-FRIENDLY

It consumes only a tiny amount of water thanks to its hydro-pneumatic fragmentation system.

### CONVENIENT

Easy to install and usable indoors, it does not flood the space where it is being used.

### RESISTANT

Designed in a high quality material, it is ultra-resistant and making it shock resistant.

The power of drops

# Zelup Blaster

The Zelup Blaster instantly alternates between its two washing modes thanks to its unique two-positions trigger system.

Fully pressed (1), it becomes a powerful cleaning tool by combining air and water.

. In intermediate mode (2), it allows to:

- Unclog dust and residues in every corner that simple cleaning tools cannot get to;
- Dry the cleaned surfaces.

*Equipped with an ingenious two-positions trigger, it alternates instantly between washing (1) and drying (2) modes.*

## The Zelup Blaster washes, brushes and dries!

### THE ZELUP BLASTER TECHNICAL SPECIFICATIONS:

TANK	10L
FLEXIBLE	3 to 10 m
WATER PRESSURE	0,5 to 2 bar
AIR PRESSURE	6 to 10 bar
AIR FLOW	250 to 350L /per minute

*Just hook it to a water connection with a pressure between 0.5 and 2 bar and an air connection with a pressure between 6 and 10 bar.*

### ACCESSORIES

*Range of accessories adaptable by just a quarter of a turn.*

- RIGID EXTENSION: 50 cm & 1 m
- FLEXIBLE EXTENSION: 1 m
- BRUSHES : 15mm / 30mm / Flower
